

# BETTER EDGE™ Foam Pads

## Better Foam

This foam is manufactured using the finest engineered foams that are specifically designed for compounding, polishing, finishing, and waxing the newer, harder, scratch-resistant finishes. They are thermally reticulated with an open cell structure, which allows air to circulate through the pad, thus reducing heat build-up.

## Machine Washable

Exclusive PUR glued and heat sealed velcro attachment manufacturing process allows you to machine wash these pads with warm water and strong detergents. Simply hang to dry.

## Better Edge

A single beveled edge allows you to buff under mirrors, door handles, trim, and other places that a double beveled edge will not reach.

## Recessed Back

Allows precision alignment for perfect balance and eliminates the possibility of contact with an exposed backing plate.

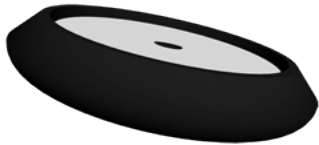

## More Foam Choices

Better results are achieved when you find your own combination of pad and polish for a system that works for you.

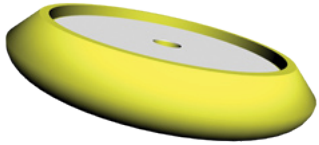

## BETTER EDGE™ 39-701 ORANGE One Step Foam Pad

This pad utilizes a European prepolymer foam that will remove scratches and swirl marks while leaving a level and smooth surface when used in conjunction with micro-fine compounds.

## BETTER EDGE™ 39-710 BLACK Heavy Cut Foam Pad

This pad has an aggressive cutting action that will remove deeper scratches, severe swirl marks, and heavy oxidation when used in conjunction with heavy polishing compounds.

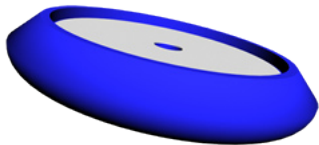

## BETTER EDGE™ 39-702 YELLOW Medium Cut Foam Pad

This pad has a moderate cutting action that will remove wet sand scratches, overspray, and surface imperfections when used in conjunction with polishing compounds.

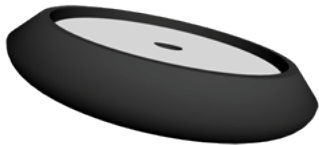

## BETTER EDGE™ 39-703 GREEN Light Cut Foam Pad

This pad has a light cutting action that will remove marring, moderate imperfections, and fine scratches when used in conjunction with light polishing compounds.

## BETTER EDGE™ 39-704 BLUE Polishing Foam Pad

This pad has a mild cleaning action for removal of swirl marks, car wash scratches, and hazing, leaving a high gloss finish when used in conjunction with finishing polishes.

## BETTER EDGE™ 39-705 CHARCOAL Finishing Foam Pad

This pad has a very light cleaning action for removal of ultrafine scratches, cobwebs, and swirl marks leaving a swirl-free finish when used in conjunction with finishing polishes.

## BETTER EDGE™ 39-706 WHITE Ultrafine Polishing Foam Pad

This pad has little cleaning action and is designed for ultra smooth paint leveling and final polishing when used in conjunction with a final finish polish or wax.

## BETTER EDGE™ 39-709 RED Ultrafine Finishing Foam Pad

This pad has no cleaning action and is used to maximize and enhance gloss during final finishing when used in conjunction with liquid waxes and sealants.
